COLLEGE OF NATURAL SCIENCES

2nd July 2012

PRESS RELEASE

Celebration of the long and committed service of Senior Professors at CoNAS

The College of Natural Sciences (CoNAS) will recognise its long serving Professors at a dinner to be held on the 20th July 2012. The group to be recognised includes nine (9) Professors and five (5) Associate Professors who have served the University diligently. Their selfless commitment has seen them continue to serve Makerere even after retirement.

On average, the professors have served 30years and above. The members have reached retirement but because of shortage of staff they have continued to serve under contract. They continue to teach, research, mentor younger staff members, attract research partnerships and also take part in outreach activities among other things. The Professors are:

No Institution can survive without the requisite leadership and human resources. For a giant academic institution like Makerere, academic staff is the bedrock of its existence and maintenance of position among peers. It is only fair to recognise their service to the College of Natural Sciences, former Faculty of Science, Makerere University and Uganda.
