Note:

- i. **B1-M1, M2-P2, M3-P3 agreed to use groups to avoid clashes.**
- ii. **Physics requested to add another column for Physics Lab & Chemistry Lab (see Appendix I)**
- iii. **Room Pi shall be not be available given it will be used for Masters Students by the Department of Mathematics**
- iv. **Department of Plant Sciences needed to get in touch with the Chemistry Department to find space for BSc. Conservation biology students.**
- v. **Room BCH S101 shall be unavailable as it will be used to cater for MSc. Biochemistry students.**
- vi. **Geology Department has been advised to take up Chemistry labs to cater for PGP students that were formally using Room Pi.**
- vii. **BOT LABS have been used for UNV2101 Development Studies yet they have been allocated space.**
- viii. **Department of Biochemistry needed space to accommodate a bigger class of Cell Biology which is taught across many programs in the School. There was a suggestion to have it taught at the Department of Plant Sciences.**
- ix. **Department of Plant Sciences only has 2 available Labs.**

- x. School of Statistics & Applied Sciences, Sports Science Unit and Department of Geology & Petroleum Studies needed to find spaces for the courses that have been previously taught in Room Pi.**
- xi. Department of Environmental Management (CAES) was advised to find space for their 1st Year Cross Cutting Programs in CeDAT and CoCIS.**
